DETAILED ACTION

Ex Parte Quayle

1. This application is in condition for allowance except for the following formal matters:

Claims 1 through 3 are objected to because of the following informalities: "assembly" should be inserted immediately following "sensor" [claim 1, line 1; claim 1, line 4; claim 2, line 1; claim 3, line 1]; "oven" should be inserted immediately following "burn-in" [claim 1, line 3]; and, "a heat sink bore;" should be inserted as a new line immediately following "comprising;" [claim 1, line 4]. Appropriate correction is required.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Allowable Subject Matter

2. Claims 1 through 28 are allowable over the prior art of record. Of these, claims 1 through 3 are objected to based on minor informalities as noted above, whereas claims 4 through 28 are allowed.

3. The following is a statement of reasons for the indication of allowable subject matter:

The prior art of record does not show nor reasonably suggest an RTD-type temperature sensor assembly for slidable mounting within a heat sink bore within a burn-in oven including a support member configuration as claimed nor a heat exchange system including such a temperature sensor assembly.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
